

Samantha H. Fisher, M.D.

445 Cove Tower Drive Apt 1004
Naples, FL 34110
(352) 870-6989
Samantha335@gmail.com

EDUCATION

M.D., *University of Florida* **May 2007**
Ranked in top third of class

Bachelor of Science, Psychology, *University of Florida* **2003**
summa cum laude

POSTGRADUATE TRAINING

Chief Resident, Dermatology, *University of Florida* **2010-2011**

Residency, Dermatology, *University of Florida* **2008-2011**
Shands Hospital and Malcom Randall VAMC

Internship, Internal Medicine, *University of Florida* **2007-2008**
Shands Hospital and Malcom Randall VAMC

MEDICAL LICENSURE AND CERTIFICATION

Diplomate of the American Board of Dermatology **July 2011**
State of Florida

PROFESSIONAL EXPERIENCE

Dermatologist, The Woodruff Institute **2012-present**

Clinical Assistant Professor, Division of Dermatology, *University of Florida* **2011-2012**

Contracted Physician, Dermatology, *Malcom Randall VAMC* **2010-2011**
Gainesville, FL

I conduct an outpatient weekend dermatology clinic once a month as a consultant.

HONORS AND AWARDS

University of Florida College of Medicine
Kenneth Leathers Scholarship **2006**

▪ Awarded to medical students that demonstrate academic excellence, are within the top third of the class, and demonstrate involvement in class activities.

Medical Science Research Grant

2004

▪ Awarded a research stipend derived from a T35 Training Grant from the NIH that funded a summer of research after first year of medical school.

University of Florida

President's List, Dean's List

1999-2003

Florida Bright Futures Scholar, 100% tuition funded

1999-2003

University Scholar Medical Research Grant

2003

Phi Beta Kappa

2002

University Women's Club Scholar

2001

Golden Key National Honors Society

2000

Dadisman C, Bovio IM, Church AA, Vincek V, Fisher SH. Plasmacytoma-Like PTLD presenting as cutaneous nodule. University of Florida, Division of Dermatology & Cutaneous Surgery. *Submitted, awaiting publication*

Witek RP, Fisher SH, Petersen BE. (2005) Monocrotaline, an alternative to retrorsine-based hepatocyte transplantation in rodents. *Cell Transplant*, 14(1):41-7.

PRESENTATIONS

Genodermatoses. May 2013 & May 2012. Florida Dermatology and Dermatopathology Board Review Course. Tampa, FL

Pemphigus foliaceus clearance status post myomectomy of an enlarged infarcted subserous uterine fibroid. February 2011. Gross and Microscopic Dermatology Symposium, American Academy of Dermatology National Meeting, New Orleans, LA

Pediatric Neoplasms. June 2010. Dermatology Grand Rounds, University of Florida, Division of Dermatology, Gainesville, FL

Scleromyxedema. December 2009. Dermatology Grand Rounds, University of Florida, Division of Dermatology, Gainesville, FL

Scaling Lesions and Vesicular and Pustular Skin Disease. September 2009. Physician Assistant Student dermatology lectures, University of Florida, Gainesville, FL.

Poxviruses. June 2009. Dermatology Grand Rounds, University of Florida, Division of Dermatology, Gainesville, FL

Telangiectasia Macularis Eruptiva Perstans. February 2009. Dermatology Grand Rounds, University of Florida, Division of Dermatology, Gainesville, FL.

Giant Plaque Type Dermatofibroma. September 2008. Dermatology Grand Rounds, University of Florida, Division of Dermatology, Gainesville, FL

Cutaneous Manifestations of the Newborn. August 2006. Dermatology Grand Rounds, University of Florida, Gainesville, FL.

The Effects of the Liver Oval Stem Cell in Treating Metabolic Disorders of the Bilirubin Metabolism. May 2003. Senior Thesis Presentation, UF, Gainesville, FL.

The Role of Monocrotaline as an Alternative to Retrosine-based Hepatocyte Transplant in Rodents. April 2003. University Scholar Symposium, UF, Gainesville, FL.

RESEARCH EXPERIENCE

Spirolactone and Retinoids in Adult Female Acne **2010-2012**
Division of Dermatology, UF College of Medicine

- Ongoing retrospective study at the academic clinic of dermatology at the University of Florida evaluating response of low dose spironolactone and topical retinoid administration for women ages 25-60 with acne not responsive to traditional acne therapies.

Investigation of the role of cell fusion in bone marrow transplantation **2004**
Medical Science Research Project Fellowship under Bryon Petersen, PhD,
Department of Pathology, UF College of Medicine.

- Tested the amount of fusion between bone marrow cells and hepatocytes, calculated through laser capture microscopy and *in situ* hybridization.

Investigation of the role of monocrotaline as an alternative to retrosine-based hepatocyte transplant in rodents **2002-2003**

Laboratory of Bryon Petersen, PhD,
Department of Pathology, UF College of Medicine.

- Investigated the use of monocrotaline (MCT) as compared to retrosine in cell transplantation studies in rodents.

Investigation of the effects of liver oval stem cells in treating metabolic disorders of bilirubin metabolism 2001-2002

Laboratory of Bryon Petersen, PhD,
Department of Pathology.

- Used an animal model of the human disease, Crigler-Najjar Syndrome

ORGANIZATIONS AND AFFILIATIONS

American Medical Association 2003-present

American Academy of Dermatology 2008-present

EXTRACURRICULAR ACTIVITIES

Residency

Volunteer Physician

2009-present

Alachua County Organization for Rural Needs Medical (ACORN) Clinic

Volunteer Physician

2009-present

University of Florida Student Health Center Mole Screen Clinic

Volunteer

2009

University of Florida Sports Medicine Jamboree

Medical School

Volunteer

2006

"Mole Patrol", Moffitt Cancer Center, University of South Florida

Volunteer

2003-2004

Equal Access Clinic for the Homeless

Undergraduate

Volunteer

2002-2003

Arts In Medicine Program at Shands Cardiology Transplant Unit

Volunteer

2001-2002

Arts In Medicine Program at Shands Children's Hospital

INTERESTS

Traveling, playing the piano, scrapbooking, listening to jazz music, painting, drawing, and reading.
